#### RECRUITER SNAPSHOT

Work Authorization: US Citizen, no sponsorship required.

Target Roles:

- Lead iOS Engineer
- Lead Mobile Engineer
- Flutter Lead

#### RECRUITER QUICK FACTS

- Open to work now for lead iOS/mobile roles.
- Employment types: Full-time, Contract, C2C.
- US Citizen; no visa sponsorship required.
- Can start within 1 week.

#### PROFESSIONAL SUMMARY

Mobile engineer with 15+ years in software delivery, including 8+ years of specialized iOS development and recent cross-platform Flutter delivery. Strong record shipping enterprise and consumer apps in banking, utility, telecom, and investment domains with focus on security, accessibility, ArcGIS mapping integrations, and scalable cloud-backed architecture.

#### IMMEDIATE VALUE

- 15+ years in end-to-end mobile software delivery across enterprise and consumer products.
- 8+ years of deep iOS specialization with Swift/SwiftUI/UIKit in production apps.
- Hands-on CI/CD + cloud operations for faster release cycles and reliable incident response.

#### CORE SKILLS

- iOS: Swift, Objective-C, SwiftUI, UIKit, Core Data, Core Bluetooth, XCTest
- Flutter: Dart, Riverpod, Firebase, state management, performance tuning
- Mapping/GIS: ArcGIS mapping systems (plus mobile map/location integrations)
- Cloud: AWS Lambda, API Gateway, DynamoDB, S3; Azure DevOps
- DevOps: Git, Jenkins, Fastlane, CI/CD pipelines, release management
- Practices: Agile/Scrum, analytics integration, accessibility, app security

#### ATS KEYWORDS

Swift, SwiftUI, UIKit, Flutter, Dart, AWS Lambda, API Gateway, DynamoDB, CI/CD, Fastlane, Firebase, ArcGIS, Map Integration
